

HUMIDIFIERS **Honeywell**

HE300A1005

- No disassembly required to replace pad
- Only runs water and air through the system when needed, saving 10,000 gallons per year
- Includes HumidiPRO digital humidistat.

HE250A1005

- Pad replacement is accessible from the front or either side. Slide out design means no disassembly.
- AgION pads feature anti-microbial coating.

HE100A1000

- Only runs water and air through the system when needed, saving 5,500 gallons of water per year.
- Automatic damper opens and closes as needed rather than constantly cycling air through the bypass.
- Includes HumidiPRO digital humidistat.
